Emily Hall Tremain Kathleen L. Housley,2001 The story of one of the foremost art collectors of the 20th century.

Tremain Houses Volker M. Welter,2019-11-19 This volume analyzes the extraordinary patronage of modern architecture that the Tremain family sustained for nearly four decades in the mid-twentieth century. From the late 1930s to the early 1970s, two brothers, Burton G. Tremain and Warren D. Tremain, and their respective wives, Emily Hall Tremain and Katharine Williams Tremain, commissioned approximately thirty architecture and design projects. Richard Neutra and Oscar Niemeyer designed the best-known Tremain houses; Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement. Focusing on the Tremaines' houses and other projects, such as a visitor center at the meteor crater in Arizona, this volume explores the Tremaines' architectural patronage in terms of the family's motivations and values, exposing patterns in what may appear as an eclectic collection of modern architecture. Architectural historian Volker M. Welter argues that the Tremaines' patronage was not driven by any single factor; rather, it stemmed from a network of motives comprising the clients' practical requirements, their private and public lives, and their ideas about architecture and art.

Late Thoughts Karen Painter,Thomas E. Crow,2006 Collects nine essays that discusses the creativity of influential artists, as well as the legacy of their work following their deaths, and covers Wolfgang Amadeus Mozart, Piet Mondrian, Frank Gehry, and others.

Eye of the Sixties Judith E. Stein,2016-07-12 In 1959, Richard Bellamy was a witty, poetry-loving beatnik on the fringe of the New York art world who was drawn to artists impatient for change. By 1965, he was representing Mark di Suvero, was the first to show Andy Warhol's pop art, and pioneered the practice of "off-site" exhibitions and introduced the new genre of installation art. As a dealer, he helped discover and champion many of the innovative successors to the abstract expressionists, including Claes Oldenburg, James Rosenquist, Donald Judd, Dan Flavin, Walter De Maria, and many others. The founder and director of the fabled Green Gallery on Fifty-Seventh Street, Bellamy thrived on the energy of the sixties. With the covert support of America's first celebrity art collectors, Robert and Ethel Scull, Bellamy gained his footing just as pop art, minimalism, and conceptual art were taking hold and the art world was becoming a playground for millionaires. Yet as an eccentric impresario dogged by alcohol and uninterested in profits or posterity, Bellamy rarely did more than show the

work he loved. As fellow dealers such as Leo Castelli and Sidney Janis capitalized on the stars he helped find, Bellamy slowly slid into obscurity, becoming the quiet man in oversize glasses in the corner of the room, a knowing and mischievous smile on his face. Born to an American father and a Chinese mother in a Cincinnati suburb, Bellamy moved to New York in his twenties and made a life for himself between the Beat orbits of Provincetown and white-glove events like the Guggenheim's opening gala. No matter the scene, he was always considered "one of us," partying with Norman Mailer, befriending Diane Arbus and Yoko Ono, and hosting or performing in historic Happenings. From his early days at the Hansa Gallery to his time at the Green to his later life as a private dealer, Bellamy had his finger on the pulse of the culture. Based on decades of research and on hundreds of interviews with Bellamy's artists, friends, colleagues, and lovers, Judith E. Stein's *Eye of the Sixties* rescues the legacy of the elusive art dealer and tells the story of a counterculture that became the mainstream. A tale of money, taste, loyalty, and luck, Richard Bellamy's life is a remarkable window into the art of the twentieth century and the making of a generation's aesthetic. -- Bellamy had an understanding of art and a very fine sense of discovery. There was nobody like him, I think. I certainly consider myself his pupil. --Leo Castelli

Avant-Garde in the Cornfields Michelangelo Sabatino, Ben Nicholson, 2019-10-15 A close examination of an iconic small town that gives boundless insights into architecture, landscape, preservation, and philanthropy *Avant-Garde in the Cornfields* is an in-depth study of New Harmony, Indiana, a unique town in the American Midwest renowned as the site of two successive Utopian settlements during the nineteenth century: the Harmonists and the Owenites. During the Cold War years of the twentieth century, New Harmony became a spiritual "living community" and attracted a wide variety of creative artists and architects who left behind landmarks that are now world famous. This engrossing and well-documented book explores the architecture, topography, and preservation of New Harmony during both periods and addresses troubling questions about the origin, production, and meaning of the town's modern structures, landscapes, and gardens. It analyzes how these were preserved, recognizing the funding that has made New Harmony so vital, and details the elaborate ways in which the town remains an ongoing experiment in defining the role of patronage in historic preservation. An important reappraisal of postwar American architecture from a rural perspective, *Avant-Garde in the Cornfields* presents provocative ideas about how history is interpreted through design and historic preservation—and about how the extraordinary past and present of New Harmony continue to thrive today. Schuette Jr., Purdue U; Ralph Schwarz; Paul Tillich.

The Collected Letters of Robinson Jeffers, with Selected Letters of Una Jeffers James Karman, 2011-10-12 The 1930s marked a turning point for the world. Scientific and technological revolutions, economic and social upheavals, and the outbreak of war changed the course of history. The 1930s also marked a turning point for Robinson Jeffers, both in his career

as a poet and in his private life. The letters collected in this second volume of annotated correspondence document Jeffers' rising fame as a poet, his controversial response to the turmoil of his time, his struggles as a writer, the growth and maturation of his twin sons, and the network of friends and acquaintances that surrounded him. The letters also provide an intimate portrait of Jeffers' relationship to his wife Una—including a full account of the 1938 crisis at Mabel Dodge Luhan's home in Taos, New Mexico that nearly destroyed their marriage.

The Man in the Glass House Mark Lamster, 2018-11-06 A smoothly written and fair-minded (Wall Street Journal) biography of architect Philip Johnson -- a finalist for the National Book Critic's Circle Award. When Philip Johnson died in 2005 at the age of 98, he was still one of the most recognizable and influential figures on the American cultural landscape. The first recipient of the Pritzker Prize and MoMA's founding architectural curator, Johnson made his mark as one of America's leading architects with his famous Glass House in New Caanan, CT, and his controversial AT&T Building in NYC, among many others in nearly every city in the country -- but his most natural role was as a consummate power broker and shaper of public opinion. Johnson introduced European modernism -- the sleek, glass-and-steel architecture that now dominates our cities -- to America, and mentored generations of architects, designers, and artists to follow. He defined the era of starchitecture with its flamboyant buildings and celebrity designers who esteemed aesthetics and style above all other concerns. But Johnson was also a man of deep paradoxes: he was a Nazi sympathizer, a designer of synagogues, an enfant terrible into his old age, a populist, and a snob. His clients ranged from the Rockefellers to televangelists to Donald Trump. Award-winning architectural critic and biographer Mark Lamster's *The Man in the Glass House* lifts the veil on Johnson's controversial and endlessly contradictory life to tell the story of a charming yet deeply flawed man. A rollercoaster tale of the perils of wealth, privilege, and ambition, this book probes the dynamics of American culture that made him so powerful, and tells the story of the built environment in modern America.

Capital Culture Neil Harris, 2013-09-30 American art museums flourished in the late twentieth century, and the impresario leading much of this growth was J. Carter Brown, director of the National Gallery of Art in Washington, DC, from 1969 to 1992. Along with S. Dillon Ripley, who served as Smithsonian secretary for much of this time, Brown reinvented the museum experience in ways that had important consequences for the cultural life of Washington and its visitors as well as for American museums in general. In *Capital Culture*, distinguished historian Neil Harris provides a wide-ranging look at Brown's achievement and the growth of museum culture during this crucial period. Harris combines his in-depth knowledge of American history and culture with extensive archival research, and he has interviewed dozens of key players to reveal how Brown's showmanship transformed the National Gallery. At the time of the Cold War, Washington itself was growing into a global destination, with Brown as its devoted booster. Harris describes Brown's major role in the birth of blockbuster exhibitions, such as the King Tut show of the late 1970s and the National Gallery's immensely successful *Treasure Houses* of

Britain, which helped inspire similarly popular exhibitions around the country. He recounts Brown's role in creating the award-winning East Building by architect I. M. Pei and the subsequent renovation of the West building. Harris also explores the politics of exhibition planning, describing Brown's courtship of corporate leaders, politicians, and international dignitaries. In this monumental book Harris brings to life this dynamic era and exposes the creation of Brown's impressive but costly legacy, one that changed the face of American museums forever.

Drawing the Line Christina Bryan Rosenberger, 2016-07-19 Agnes Martin's (1912-2004) celebrated grid paintings are widely acknowledged as a touchstone of postwar American art and have influenced many contemporary artists. Martin's formative years, however, have been largely overlooked. In this revelatory study of Martin's early artistic production, Christina Bryan Rosenberger demonstrates that the rapidly evolving creative processes and pictorial solutions Martin developed between 1940 and 1967 define all her subsequent art. Beginning with Martin's initiation into artistic language at the University of New Mexico and concluding with the reception of her grid paintings in New York in the early 1960s, Rosenberger offers vivid descriptions of the networks of art, artists, and information that moved between New Mexico and the creative centers of New York and California in the postwar period. She also documents Martin's exchanges with artists including Ellsworth Kelly, Barnett Newman, Georgia O'Keeffe, Ad Reinhardt, and Mark Rothko, among others. Rosenberger uses original analysis of Martin's art, as well as a rich array of archival materials, to situate Martin's art within the context of a dynamic historical moment. With a lively, innovative approach informed by art history and conservation, this fluidly written book makes a substantial contribution to the history of postwar American art.

Boom Michael Shnayerson, 2019-05-21 The meteoric rise of the largest unregulated financial market in the world-for contemporary art-is driven by a few passionate, guileful, and very hard-nosed dealers. They can make and break careers and fortunes. The contemporary art market is an international juggernaut, throwing off multimillion-dollar deals as wealthy buyers move from fair to fair, auction to auction, party to glittering party. But none of it would happen without the dealers-the tastemakers who back emerging artists and steer them to success, often to see them picked off by a rival. Dealers operate within a private world of handshake agreements, negotiating for the highest commissions. Michael Shnayerson, a longtime contributing editor to Vanity Fair, writes the first ever definitive history of their activities. He has spoken to all of today's so-called mega dealers-Larry Gagosian, David Zwirner, Arne and Marc Glimcher, and Iwan Wirth-along with dozens of other dealers-from Irving Blum to Gavin Brown-who worked with the greatest artists of their times: Jackson Pollock, Andy Warhol, Cy Twombly, and more. This kaleidoscopic history begins in the mid-1940s in genteel poverty with a scattering of galleries in midtown Manhattan, takes us through the ramshackle 1950s studios of Coenties Slip, the hipster locations in SoHo and Chelsea, London's Bond Street, and across the terraces of Art Basel until today. Now, dealers and auctioneers are seeking the first billion-dollar painting. It hasn't happened yet, but they are confident they can push the price there soon.

The Value of Art (New, expanded edition) Michael Findlay,2022-11-02 On the tenth anniversary of its publication, this updated edition of a work ARTNews hailed as “one of the best books ever published on the art world” features new material on the latest art deals, reflections on race and culture, the impact of the pandemic on the art world, and more. Internationally renowned dealer and market expert Michael Findlay offers a lively and authoritative look at the financial and emotional value of art throughout history. In this newly revised, updated, and generously illustrated edition Findlay draws on a half-century in the business and a passion for great art to question and redefine what we mean by “value,” addressing developments in this conversation since the book was first published in 2012: the rise of NFTs and digital art; the auction house as theatre; the pressing relationship between art and society’s fraught political landscape; and the impact of the pandemic. With style and wry wit, Findlay demystifies how art is bought and sold while also constantly looking beyond sales figures to emphasize the primacy of art’s essential, noncommercial worth. Coloring his account with wise advice, insider anecdotes involving scoundrels and scams, stories of celebrity collectors, and remarkable discoveries, Findlay has distilled a lifetime’s experience in this indispensable guide, now updated for today’s sophisticated and discerning audience.

The Phantom of Fifth Avenue Meryl Gordon,2014-05-27 From New York Times bestselling author Meryl Gordon, the definitive biography of Huguette Clark, who went from being one of the wealthiest and most famous Jazz Age socialites to spending the last twenty years of her life hiding out in hospitals. Born in 1906, Huguette Clark grew up in her family's 121-room Beaux Arts mansion in New York and was one of the leading celebrities of her day. Her father William Andrews Clark, was a copper magnate, the second richest man in America, and not above bribing his way into the Senate. Huguette attended the coronation of King George V. And at twenty-two with a personal fortune of \$50 million to her name, she married a Princeton man and childhood friend William MacDonald Gower. Two-years later the couple divorced. After a series of failed romances, Huguette began to withdraw from society--first living with her mother in a kind of Grey Gardens isolation then as a modern-day Miss Havisham, spending her days in a vast apartment overlooking Central Park, eating crackers and watching The Flintstones with only servants for company. All her money and all her real estate could not protect her in her later life from being manipulated by shady hangers-on and hospitals that were only too happy to admit (and bill) a healthy woman. But what happened to Huguette that turned a vivacious, young socialite into a recluse? And what was her life like inside that gilded, copper cage?
